Re: ITT Evaluation – GM BGH Event Management Enterprise Festival

Ref: T25003

Dear Tolu,

Thank you for participating in the GM BGH Event Management Enterprise Festival.

All submissions were thoroughly reviewed against the criteria outlined in the tender documents. Following a detailed evaluation process, I regret to inform you that your bid was not successful on this occasion. The management of GM BGH has decided to award the contract to **Elevate GM Ltd**.

Below is a table comparing your score for each question with that of the successful tenderer:

Criteria	Score	Event Perfekt	Winning Bid
Capability, Knowledge and Resource	20%	20%	20%
Methodology	15%	12%	12%
Case Studies	10%	10%	10%
Understanding of GM BGH	5%	5%	5%
Social Value inc. Environmental impact	20%	14%	15%
Value for Money	10%	10%	10%
Price	20%	15%	16%
Total	100%	86%	88%

To assist you in any future bids, I have provided some feedback in relation to the relative advantages of the winning bidder:

- Commitment to Robust Evaluation: Ensuring activities meet contractual requirements and demonstrate economic impact.
- Focus on Service Design: Developing new elements to the event.

- Good understanding of GM Economic strategy and how to position the festival of enterprise to celebrate entrepreneurship within GM
- Alignment with Broader Objectives: Contributing to sustainability agenda.
- A comprehensive analysis and understanding of The Growth Company and GM Business Growth Hub with a focus on the role of the Festival of Enterprise in supporting the region's wider economic development.
- Provided detailed case studies that were highly relevant to the subject matter and closely aligned with the work of Enterprising You and the GM Business Growth Hub. The case studies also demonstrated a strong understanding of Manchester, highlighting previous engagement with local contractors and businesses
- Social Value: Diverse methods of delivery along with clear demonstrable track record. Examples of quantitative data supported both understanding and experience.

Feedback on Your Bid:

- Social value scoring was lower than the successful applicant
- Out of the 2 case studies provided one was relevant to the target audience, however neither case studies were delivered in Greater Manchester and makes it difficult for us to grasp if the applicant has an understanding of the Greater Manchester Eco-system.
- Could have elaborated more on how your expertise could contribute further to the success of the GM Business Growth hub, the how's and why's?.

Thank you once again for submitting a bid and participating in this tender process.

This was an exceptionally competitive process, with 8 strong bids received, which made the decision incredibly challenging for our management team. The scores were very close, but as we only required one provider, a final selection had to be made.

Ultimately, Elevate GM Ltd was awarded the contract, and we truly appreciate the effort and time you dedicated to your submission.

Please don't be discouraged by the outcome; your involvement is highly valued, and we sincerely hope you will consider applying for future opportunities with us.

If you have any questions or require further information about this tender, please don't hesitate to contact me via email at bassel.akkad@growthco.uk or through the Panacea platform.

Thank you again for your interest and commitment.

Yours sincerely, Bassel AKKAD
